## KIRCHEN IS THE NEW MANAGER

SUCCEEDS BRYCE TURNER IN CHARGE OF MONTGOMERY-SHOSHONE AFFAIRS.

John G. Kirchen, superintendent of the Tonopah Extension, accompanied by Mrs. Kirchen, left yesterday for Rhyolite and will return some time next week.

Mr. Kirchen has but recently been appointed manager for the Montgomery-Shoshone, succeeding Bryce Turner, who sent in his resignation some time ago. It is understood that Mr. Turner will shortly leave for Los Angeles and from there make a tour of Old Mexico, looking into mining properties in that country.

Mr. Kirchen will divide his time between the two properties, the Tonopah Extension and Montgomery-Shoshone, looking after the interests of both corporations. He is rated as one of the best mine managers and engineers in the country, having had a wide experience, and has a high standing in the mining world. He is a graduate of the University of Michigan. Prior to coming to Tonopah he was manager of the Oregon Smelting and Refining Company at Sumpter, Oregon.

## PERSONAL MENTION

## MANHATTAN HAS GREAT FUTURE

W. S. JOHNSON VISITS THE CAMP AND IS SURPRISED AT THE WORK THERE.

W. S. Johnson returned yesterday from Manhattan, where he had gone on a tour of inspection of mining properties in which he is interested. He was surprised at the amount of work going on in the camp. Many leases are being operated, and there are many applicants for additional ones. On the Shea lease on the Union No. 9, he saw some of the finest rock that has been his privilege of handling in a long time. On the 200-foot level of the Stray Dog, at a distance of 20 feet from the shaft a four-foot ledge was encountered which pans freely in gold. An outfit are working a combination dry wash and placer machine on the Riley fraction adjoining the Stray Dog, which in less than five days washed out 44 ounces in gold. Another dry washing machine is working on the Tip Top claim of the Saylor-Humphrey Mining company's ground. The Gold Crater, which has a dump of some 75 tons of ore, has been sampled, and the nature of the assays has led the company to enter upon negotiations with the owners of adjoining ground looking toward the installation of a mill for the purpose of handling the output. It is confidently expected that before long stamps will be dropping in that vicinity. The Chapman mill put through its first run Thursday with good results. The Wolf mill is also grinding away steadily, and the saving effected is 98 per cent.

"I believe," said Mr. Johnson, "that Manhattan has a great future before it. She was on the high road to prosperity when the earthquake and fire in San Francisco stopped work in that camp. Since then, despite adverse conditions, she has managed to keep up, and every now and then ship bullion to the mint. The mills there furnish the leaser an opportunity of getting money for his work. Heretofore it has been impossible to ship ores of a fair grade the distance they have been forced to and receive any profit. As it is now, a property containing ores that run from \$25 to \$40 has a rich thing. Take, for instance, the Briggs-Evans dump on Union No. 14, on which there were 4,000 tons of ore that had been lying there for two years and was handled in a two-months' run at the Peterson mill. As I understand it, the ore averaged \$35. I certainly believe, as I stated at the outset, that the opportunity for getting a return for one's investment is fully as good in Manhattan, if not better, than in any other camp that I know of."

## LOOK AROUND YOUR OFFICE

For ledgers, daybooks, in fact for anything that may be lacking in your office, go to the Bonanza bindery. We have samples of the style of work which is turned out, but for the matter of that one does not have to visit the bindery. There are samples of our work in nearly all the offices in the city.

Our work stands as the best recommendation of the character of the stuff that we turn out. We can do anything in our line that can be done in any of the big cities, can do it as well, and give better service in the matter of prompt delivery than any other institution of the kind in the State.

## WATER FIGHT TO BE BIG FEATURE

VOLUNTEER FIREMEN WILL ENGAGE IN NOVEL CONTEST ON THE FOURTH.

Interest in the coming Fourth of July celebration is assuming proportions, and the affair gives promise of eclipsing anything of its kind ever before attempted. The amount of prize money offered men engaged in the drilling contests and being confined to men who are members of the Tonopah Miners' Union, it can readily be understood that the contest will be above the ordinary.

The Volunteer Firemen are preparing to make a grand showing. Uniforms are on the way, and it is expected that they will arrive here the forepart of next week. Owing to the fact that Will Grimes is a member of the Tonopah Band, manipulating the base drum, and as there are but few musicians who can play this delicate instrument, he was forced to resign from the position of captain of one of the hose cart teams which will race on the Fourth. He will be succeeded by Bob Pohl.

The water fight scheduled to take place by the Volunteer Firemen will be one of the most interesting and novel features of the day. Hose will be attached to the fire hydrants, four men holding each nozzle, and at a given signal the water will be turned on. Then the fight will commence in earnest and will afford much amusement, and probably some discomfort should the spectators get in the way of the streams.

Another feature will be the baseball games to be played on the 4th and 5th.

The mines and business houses closing for two days will give an opportunity for everybody to participate.

Another event that should certainly draw a large crowd is the fight between Terry Mustain and Jack (Twin) Sullivan, which occurs on the night of the Fourth. The known reputation of Sullivan and the prospect of its being one of the best mills pulled off in this neck of the woods will induce a large crowd from Goldfield, Manhattan, Round Mountain, Millers, the nearby camps and even Reno and other cities in the northern part of the State. A message was received last night by C. W. Miller from San Francisco which said that Sullivan and his manager would leave this morning for Tonopah.

We deliver our goods, so send in your orders to H. J. Hall & Co., for wet goods. Phone 812.

## BARTLETT WILL BE BACK WEDNESDAY

TAKES IN CONVENTION AT CHICAGO TO SEE HOW IT'S DONE.

Malcolm Macdonald yesterday received the following telegram from Hon. George A. Bartlett, dated at Chicago, showing that George could not get by the big event of the season:

"CHICAGO, June 19, 1908:—Great show. Leave tomorrow. Will be in Carson Monday. Home the next day.—GEORGE BARTLETT."

To which Mr. Macdonald responded:

"Glad to know you have been converted and hope country is now saved. There is more rejoicing over the return of one lost sheep than in the saving of forty good bucks."

## ALAMO OPENS A BEER GARDEN

"Under the shade of the sheltering palm" is going to be exemplified in Tonopah for the reason that the management of the Alamo saloon has opened a beer garden in the rear of their place of business, where one can quaff the best brews to their heart's content. The resort has been fitted up in the Hofbrau style, which we understand means the brewery where the German Emperors and Kings congregate. Waiters from the Fatherland have been engaged to wait upon the guests, and it will be up to the average American to get on to the lingo of "ein Stein" or "zwei Stein" or any other kind of steins, as long as the beer is forthcoming.

PALACE HOTEL OPENING. Having completed my building, I will again be back at my old quarters in the Palace Hotel butcher shop and saloon and will have a grand opening on Saturday, June 20.
